The Honorable Harry Reid
Majority Leader, United States Senate

The undersigned state attorneys general, in response to numerous inquiries, write to express our grave concern with the Senate version of the Patient Protection and Affordable Care Act ("H.R. 3590"). The current iteration of the bill contains a provision that affords special treatment to the state of Nebraska under the federal Medicaid program. We believe this provision is constitutionally flawed. As chief legal officers of our states we are contemplating a legal challenge to this provision and we ask you to take action to render this challenge unnecessary by striking that provision.

It has been reported that Nebraska Senator Ben Nelson's vote, for H.R. 3590, was secured only after striking a deal that the federal government would bear the cost of newly eligible Nebraska Medicaid enrollees. In marked contrast all other states would not be similarly treated, and instead would be required to allocate substantial sums, potentially totaling billions of dollars, to accommodate H.R. 3590's new Medicaid mandates. In addition to violating the most basic and universally held notions of what is fair and just, we also believe this provision of H.R. 3590 is inconsistent with protections afforded by the United States Constitution against arbitrary legislation.

In *Helvering v. Davis*, 301 U.S. 619, 640 (1937), the United States Supreme Court warned that Congress does not possess the right under the Spending Power to demonstrate a "display of arbitrary power." Congressional spending cannot be arbitrary and capricious. The spending power of Congress includes authority to accomplish policy objectives by conditioning receipt of federal funds on compliance with statutory directives, as in the Medicaid program. However, the power is not unlimited and "must be in pursuit of the 'general welfare.'" *South Dakota v. Dole*, 483 U.S. 203, 207 (1987). In *Dole* the Supreme Court stated, "that conditions on federal grants might be illegitimate if they are unrelated to the federal interest in particular national projects or programs." *Id.* at 207. It seems axiomatic that the federal interest in H.R. 3590 is not simply requiring universal health care, but also ensuring that the states share with the federal government the cost of providing such care to their citizens. This federal interest is evident from the fact this
