Mr. Willing,

It has come to my attention that Windsor Township in York County has ordinance with unreasonable restrictions on forestry use, which violate ACRE law.

I reviewed the township ordinance "Section 322 Timber Harvesting Operations", and found many such unreasonable restrictions. Provisions in Sections 322.3, 322.4 and 322.5 are especially unreasonable.

This ordinance contains several provisions very similar to those in the Clay Township ordinance, which the OAG recently determined to be violations of ACRE law.

Therefore, I hereby make this complaint, and will appreciate an OAG review of the Windsor Township ordinance.

Thank you very much.

Sincerely,

[REDACTED]
