ASSURANCE OF VOLUNTARY COMPLIANCE

Petitioner, the Commonwealth of Pennsylvania, Office of Attorney General by Attorney General Josh Shapiro and Respondent, T-Mobile USA, Inc. enter into this Assurance of Voluntary Compliance pursuant to the Unfair Trade Practices and Consumer Protection Law, 73 P.S. § 201-1, *et seq.*; 201-5 (“Consumer Protection Law”).

This Assurance of Voluntary Compliance (“Assurance”) is entered into by the Attorneys General of Arizona, Arkansas, Connecticut, District of Columbia, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, New Hampshire, New Jersey, New York, Nevada, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, Tennessee, Texas, Vermont, Virginia, Washington and Wisconsin (referred to collectively as the “Attorneys General”) and T-Mobile USA, Inc. (“T-Mobile”; collectively, with the Attorneys General, the “Parties”) to resolve the investigation by the

Attorneys General into the unauthorized access to portions of the Experian network that stored the sensitive personal information of individuals who had applied for postpaid services offered by T-Mobile and that was announced by T-Mobile on or about September 30, 2015 (the “2015 Experian Data Breach”).

In consideration of their mutual agreement to the terms of this Assurance, and such other consideration as described herein, the sufficiency of which is hereby acknowledged, the Parties hereby agree as follows:

I. INTRODUCTION

This Assurance constitutes a good faith settlement and release between T-Mobile and the Attorneys General of claims related to the 2015 Data Breach in which a person or persons gained unauthorized access to portions of Experian’s computer systems that included Personal Information of individuals who had applied for postpaid services offered by T-Mobile. By entering into this Assurance, neither Party is taking any position on any substantive issue, including any wrongdoing, fault, violation of law, deviation from industry norms and practices, liability, or any causal relationship between any action or inaction by T-Mobile and the 2015 Experian Data Breach.

II. DEFINITIONS

1. For the purposes of this Assurance, the following definitions shall apply:
 - A. “2015 Experian Data Breach” shall mean the security incident in which a person or persons gained unauthorized access to portions of the Experian network that stored the Personal Information of individuals who applied for

postpaid services offered by T-Mobile and that was announced by T-Mobile on or about September 30, 2015. “2015 Experian Data Breach” shall not, under any circumstances and regardless of the consumers impacted, data involved, or the date of discovery or compromise, include any security incidents announced on or after October 1, 2015 (“Future Incidents”).

- B. “Consumer” shall mean any individual who provides Personal Information to T-Mobile in connection with any offer or transaction for goods or services.
- C. “Consumer Protection Acts” shall mean the State unfair and deceptive acts and practices statutes listed in Appendix A.
- D. “Effective Date” shall be December 7, 2022.
- E. “Leadership States” shall mean the Maryland, Connecticut, Illinois and the District of Columbia Attorneys General.
- F. “Personal Information” shall mean the data elements in the definitions of Personal Information set forth in the applicable Security Breach Notification Acts and/or Personal Information Protection Acts listed in Appendix B. Nothing in this Assurance would broaden the jurisdiction or scope of any such law, or nullify any exceptions.
- G. “Personal Information Protection Acts” shall mean the statutes listed in Appendix B.
- H. “Security Breach Notification Acts” shall mean the statutes listed in Appendix B.

- I. “T-Mobile” shall mean T-Mobile USA, Inc., its affiliates, subsidiaries and divisions, successors and assigns doing business in the United States.
- J. “Security Event” shall mean any compromise that results in the unauthorized access, acquisition, or exfiltration of Personal Information owned, licensed, or maintained by T-Mobile or any Consumer Personal Information maintained by any Vendor.
- K. “Vendor” shall mean any third party that accesses, collects, or stores Consumer Personal Information on behalf of T-Mobile, pursuant to a contract with T-Mobile. For purposes of this Assurance, “Vendor” shall not include: 1) any third party that only accesses, collects, or stores de minimis amounts of Consumer Personal Information on behalf of T-Mobile; 2) law firms and third party dealers¹; and 3) any third party that is of a type that is not monitored by T-Mobile’s Third Party Risk Management processes and procedures as of the Effective Date.² It shall be T-Mobile’s burden to show that a third party falls within one of the above exceptions.

III. APPLICATION

2. The duties, responsibilities, burdens, and obligations undertaken in connection with this Assurance shall, subsequent to the Effective Date, apply to T-Mobile, its affiliates,

¹ For purposes of this Assurance, the term “third party dealers” shall refer only to third party retailers that sell T-Mobile products and services.

² The parties agree that any third party, or type of third party, monitored by T-Mobile’s Third Party Risk Management processes and procedures within the two (2) years preceding the Effective date shall not fall under exception (3) to the definition of “Vendor” and shall continue to be subject to T-Mobile’s Third Party Risk management processes and procedures, as required by this Assurance, after the Effective Date.

subsidiaries, agents, directors, successors and assigns, and its executive management officers having decision-making authority with respect to the subject matter of this Assurance.

IV. ASSURANCES

GENERAL COMPLIANCE

3. Subsequent to the Effective Date:
 - A. T-Mobile shall comply with the Consumer Protection Acts, Personal Information Protection Acts and Security Breach Notification Acts, as applicable, in connection with its collection, use, and maintenance of Personal Information, and shall maintain reasonable security policies and procedures, consistent with applicable state and federal laws and industry norms and practices, designed to safeguard Personal Information from unauthorized use or disclosure.
 - B. T-Mobile shall not misrepresent the extent to which T-Mobile maintains and protects the privacy, security, or confidentiality of Personal Information collected from or about Consumers.
 - C. T-Mobile shall comply with the reporting and notification requirements set forth in any applicable Security Breach Notification Act.

INFORMATION SECURITY PROGRAM

4. T-Mobile shall maintain and continue to implement a written information security program (“Information Security Program”) that is reasonably designed to protect the security, integrity, and confidentiality of Personal Information that T-Mobile collects, stores, and/or transmits. T-Mobile shall also have a vendor management program that incorporates the specific

vendor management requirements set forth in Paragraphs 12 through 20 of this Assurance (“Vendor Management Program”). For purposes of this Assurance, the term “Information Security Program” will be understood to include the Vendor Management Program, but nothing in this Assurance is intended to require any particular relationship between T-Mobile’s implementation of its Information Security Program and Vendor Management Program.

5. The Information Security Program shall comply with any applicable requirements under state or federal law, and shall contain reasonable administrative, technical, and physical safeguards appropriate to: (i) the size and complexity of T-Mobile’s operations; (ii) the nature and scope of T-Mobile’s activities; and (iii) the sensitivity of the Personal Information that T-Mobile collects, stores, and/or transmits.

6. The Information Security Program shall be written and modified to require reasonable efforts to collect and share Personal Information only to the minimum extent necessary to satisfy legitimate business purposes.

7. T-Mobile shall review the Information Security Program not less than annually and make any updates that are necessary to reasonably protect the privacy, security, and confidentiality of Personal Information that T-Mobile collects, stores, and/or transmits.

8. T-Mobile shall employ one or more executives or officers responsible for implementing, maintaining, and monitoring the Information Security Program (hereinafter referred to as the Chief Information Security Officer but may be differently titled in an equivalently ranked position) (“CISO”). The CISO shall have credentials, background, and expertise in information security appropriate to the level, size, and complexity of her/his role in implementing, maintaining, and monitoring the Information Security Program.

9. The role of the CISO will include regular and direct reporting to the Chief Executive Officer, Executive Staff, and Board of Directors concerning T-Mobile's security posture, the security risks faced by T-Mobile, and the security implications of T-Mobile's lines of business.

10. T-Mobile shall provide training on the requirements of its Information Security Program, to employees directly responsible for implementing, maintaining, or monitoring it, including those who report directly or indirectly to the CISO. T-Mobile shall provide the training required under this paragraph to such employees within sixty (60) days of the Effective Date of this Assurance or prior to their starting their responsibilities for implementing, maintaining, or monitoring the Information Security Program, whichever is later. T-Mobile shall provide notice of the Assurance to employees directly responsible for implementing, maintaining, or monitoring T-Mobile's Information Security Program, within sixty (60) days of the Effective Date of this Assurance.

11. T-Mobile shall maintain and continue to implement its written cyber incident and response plan to prepare for and respond to suspected and confirmed Security Events ("Incident Response Plan"), which shall comply with industry norms and practices and all applicable state and federal laws. The Incident Response Plan shall include a review of the role and security of any Vendor involved in the Security Event.

THIRD-PARTY RISK MANAGEMENT PROGRAM

12. T-Mobile shall maintain and continue to implement written policies and procedures to oversee its Vendors' performance of any security and privacy obligations (arising by contract or law) relating to any Consumer Personal Information provided to Vendors by T-Mobile. T-

Mobile shall take reasonable steps to confirm that such Vendors are taking reasonable security measures to safeguard Consumer Personal Information.

13. **Third-Party Risk Management Team:** T-Mobile shall maintain a dedicated third-party risk management team (“TPRM Team”) responsible for implementing and maintaining a comprehensive third-party risk management program (“TPRM Program”). Members of the TPRM Team shall have the appropriate credentials, background, and expertise in information security necessary to effectuate the TPRM Program, including assessing and managing data security risks for Vendors. The TPRM Team shall:

- A. Meet frequently and regularly report to the CISO, or his/her designee, on the effectiveness of the TPRM Program, including how the TPRM Team mitigates and monitors vendor security risks.
- B. Consider the inherent risk rating assigned to the Vendor engagement pursuant to Paragraph 15 in determining whether to escalate internal reporting regarding a Vendor, including, but not limited to, to the CISO; and
- C. Engage in regular meetings with the CISO to identify risk strategies and priorities and to incorporate those into the TPRM Program.

14. **Third-Party Risk Management Program Review:** T-Mobile shall review the TPRM Program not less than bi-annually and make any updates necessary to ensure the reasonable security and confidentiality of Consumer Personal Information that Vendors access, process, or store on behalf of T-Mobile. Any such T-Mobile obligation of oversight is not intended to, nor

does it, supplant the Vendor's own responsibility to protect Personal Information under any applicable laws or contracts.

15. **Vendor Inventory:** T-Mobile shall maintain and regularly update an inventory of all active T-Mobile Vendors ("Vendor Inventory") and a repository of active Vendor contracts. T-Mobile shall assign an inherent risk rating to each Vendor engagement or class of vendor engagements based on the nature and type of the Consumer Personal Information accessed, collected, processed, transmitted, used, maintained, or stored by each such Vendor. In assessing a Vendor's ability to protect and secure Consumer Personal Information, T-Mobile shall:

- A. Identify the nature and type of Consumer Personal Information that each Vendor may process, transmit, use, or store on T-Mobile's behalf during a specific engagement;
- B. Assign a risk rating for each Vendor engagement and design and deploy risk assessments and ongoing monitoring programs appropriate to each level of risk; and
- C. Record the date(s) of each Vendor engagement's completed risk assessments.

T-Mobile shall maintain and continue to implement a risk scoring protocol for evaluating its Vendor engagements, given the particularized service the Vendor will provide to T-Mobile and specific categories of Consumer Personal Information that the Vendor accesses, transmits, processes, collects, uses, maintains, or stores. Based on a risk score assigned to Vendor engagements pursuant to T-Mobile's risk scoring protocol, T-Mobile will identify appropriate Vendor engagements as "critical" based on a risk analysis as defined in the risk scoring protocol.

16. **Vendor Contracts- Specific Security Requirements:** Except as provided for in subparagraph C, in all contracts entered into after the Effective Date of this Assurance but before five (5) years from the Effective Date, that are not already subject to negotiated and agreed-upon security terms, T-Mobile shall require Vendors to implement specific requirements for protecting Consumer Personal Information, including compliance with appropriate industry norms and practices that include cybersecurity or data security-related requirements. These requirements may refer to specific standards, as appropriate, such as the National Institute of Standards and Technology's Cybersecurity Framework, specific policies, or other appropriate benchmarks, as deemed reasonable by security personnel with appropriate qualifications and access to information to make such determinations. In particular:

- A. T-Mobile shall contractually obligate its Vendors to comply with the following data security requirements, either by including these requirements expressly, or by mandating compliance with T-Mobile policies, industry standards, or similar that already have such requirements:
 - i. In a multi-tenant environment, data stores holding Consumer Personal Information must be segmented from others, or otherwise appropriately protected where segmentation is not possible and where such alternative protections are reasonable based on the nature and quantity of data stored.
 - ii. Consumer Personal Information must be accessed, collected, retained, transmitted, used, stored, and shared only to the

minimum extent necessary to satisfy legitimate business purposes.

- iii. Cryptographic keys must never be stored in locations that do not meet secure key management requirements (e.g., log files, ticket tracking systems, knowledge management systems, or training documentation) as per industry best practices.
 - iv. Passwords used to protect cryptographic keys must be as strong as the keys they protect.
 - v. Any software vulnerabilities that may materially impact security as it relates to T-Mobile systems and data must be (a) reported promptly (without unreasonable delay) to T-Mobile; and (b) patched promptly after the release of the software patch, subject to appropriate testing and a confirmation that such patch will not have unintended performance consequences.
 - vi. All network and information systems used for T-Mobile, in conjunction with the terms of any contractual agreements, must be auditable and includes but not limited to System/OS logs, Application logs, Database logs and Security Control logs.
- B. T-Mobile may grant exceptions to the above contractual security requirements during or subsequent to the contracting process; however, the determination to implement an exception must be accompanied by written documentation demonstrating that a risk analysis was performed indicating

the gap between the original security measure and the proposed alternative measure, that the risk was determined to be acceptable, and that the CISO or his or her designee(s) agree(s) with both the risk analysis and the determination that the risk is acceptable.

- C. To the extent a Vendor will not or cannot agree to contractually obligate itself to appropriate security safeguards appropriate to the level of risk and data in scope, T-Mobile will consider such risk in assessing the Vendor for engagement, including requiring mitigation or remediation of such risk(s). T-Mobile shall further require that Vendors agree to flow-down T-Mobile's security requirements to their subcontractors and sub-suppliers ("Fourth Parties") who process Consumer Personal Information on behalf of T-Mobile and shall contractually obligate that Vendors have reasonable policies and procedures in place to monitor Fourth Parties' compliance with such requirements. Any non-compliance with these requirements shall be considered a risk factor in assessing the Vendor for engagement, including requiring mitigation or remediation of such risk(s).

17. **Vendor Assessment & Monitoring Mechanisms:** T-Mobile shall utilize a variety of security assessment and monitoring practices to confirm that Vendors are able to comply with T-Mobile's security requirements to safeguard Consumer Personal Information, such as Vendor self-assessments and attestations, third-party audits, formal certifications, risk assessments, penetration tests and/or on-site visits. The frequency, type, and robustness of such assessments

shall be based on each Vendor engagement's inherent risk rating and consistent with the requirements of this Assurance.

18. **Vendor Self-Assessments:** Where T-Mobile allows Vendors to provide self-assessments during pre-engagement or ongoing monitoring, T-Mobile shall utilize other layers of review to obtain corroboration of such assessments as appropriate based on the particular circumstances of each situation. The additional layers of review may include, for example, reviewing information provided through commercially available intelligence tools or requesting specific documents from a Vendor, such as reports relating to third party certifications.

19. **Vendor Security Events:** T-Mobile shall require that each Vendor promptly provide notice to T-Mobile whenever that Vendor has experienced a suspected or confirmed Security Event. T-Mobile shall include in its Vendor contracts entered into following the Effective Date of this Assurance the roles and responsibilities to be undertaken by T-Mobile and the Vendor in the event of a Security Event, including obligations for providing notice to Consumers. To the extent feasible, T-Mobile shall amend existing contracts with Vendors rated as critical to include such roles and responsibilities as such contracts come up for renewal.

20. **Vendor Non-Compliance:** T-Mobile shall retain appropriate contractual rights to enforce a Vendor's compliance with T-Mobile's security safeguards and policies, which may include notice and cure procedures or termination of the Vendor's contract and/or data access as may be appropriate. Appropriate action shall include consideration of the totality of the circumstances, including but not limited to, any failure of the Vendor to perform any of its contractual and legally required security and privacy obligations, the cost and risks involved in terminating such Vendor, and the existence of alternative Vendors to provide the same services.

When a Vendor will not or cannot agree to the inclusion of the requirements of paragraphs 16 through 19 of this Assurance in any prospective contract with that Vendor, the absence of such requirements will be considered as part of any risk assessment of the Vendor engagement.

V. THIRD PARTY RISK MANAGEMENT PROGRAM ASSESSMENT

21. Not less than one (1) year, but within two (2) years of the Effective Date, T-Mobile shall conduct or obtain an assessment of T-Mobile's TPRM Program, and its compliance with the terms of this Assurance. T-Mobile shall prepare a report of the results of the assessment, which shall include descriptions of each of the processes in place or steps taken to comply with the specific requirements of this Assurance. T-Mobile shall provide a copy of the report to the Connecticut Attorney General within sixty (60) days of its completion.

- A. Confidentiality: The Connecticut Attorney General's Office shall, to the extent permitted by the laws of the State of Connecticut, treat the report as confidential and exempt from disclosure under the relevant public records laws.
- B. Signatory State Access to report: The Connecticut Attorney General's Office may provide a copy of the report to any other participating Attorneys General upon request, and each requesting Attorney General shall, to the extent permitted by the laws of the Attorney General's State, treat such report as confidential and exempt from disclosure under the relevant public records laws.

VI. DOCUMENT RETENTION

22. T-Mobile shall retain and maintain the policies, inventories, contracts, exceptions and related risk analyses, and other documentation required by this Assurance for a period of no less than three (3) years from the date of their creation.

VII. PAYMENT TO THE STATES

23. T-Mobile shall pay Two Million, Four Hundred Thirty-Six Thousand, One Hundred Ten Dollars and 71/00 (\$2,436,110.71) to the Attorneys General. Said payment shall be divided and paid by T-Mobile directly to each of the Attorneys General in an amount designated by the Attorneys General and communicated to T-Mobile by the Leadership States. Each of the Attorneys General agrees that the Leadership States have the authority to communicate the designated amount to be paid by T-Mobile to each Attorney General and to provide T-Mobile with instructions for the payments to be distributed under this Paragraph. Payment shall be made no later than thirty (30) days after the Effective Date of this Assurance and receipt of such payment instructions by the Leadership States except that where state law requires judicial or other approval of the Assurance, payment shall be made no later than thirty (30) days after notice from the relevant Attorney General that such final approval for the Assurance has been secured.

24. Of the total amount, T-Mobile will pay Seventy Two Thousand Three Hundred Twelve Dollars and 79/00 (\$72,312.79) to the Pennsylvania Attorney General. The payments received by the Pennsylvania Attorney General may be used for purposes that may include, but are not limited to, attorneys' fees, and other costs of investigation and litigation, or may be placed in, or applied to, any consumer protection law enforcement fund, including future consumer protection or privacy enforcement, consumer education or redress, litigation or local consumer aid

fund or revolving fund, used to defray the costs of the inquiry leading hereto, and/or for other uses permitted by state law.

VIII. RELEASE

25. Following full payment of the amounts due to the Pennsylvania Attorney General under this Assurance, the Pennsylvania Attorney General shall hereby release and discharge T-Mobile from all civil claims that the Pennsylvania Attorney General could have brought under the Consumer Protection Acts, the Personal Information Protection Acts, and the Security Breach Notification Acts based on any action or inaction by T-Mobile or Experian related to the 2015 Experian Data Breach. Nothing contained in this paragraph shall be construed to limit the ability of the Pennsylvania Attorney General to enforce the obligations that T-Mobile has under this Assurance. Further, nothing in this Assurance shall be construed to create, waive, limit, settle, or release, any claims related to T-Mobile's acts and practices in connection with data security incidents that commenced after the 2015 Experian Data Breach, including without limitation, the data security incident announced by T-Mobile in August 2021, or resolve any private right of action, including such private causes of action, claims or remedies that could be brought under the statutes listed in Appendices A or B, provided however, that nothing in this Assurance limits T-Mobile from raising any position or defense to oppose or limit liability or damages in connection with any Future Incidents.

IX. PRESERVATION OF AUTHORITY

26. Nothing in this Assurance shall be construed to limit the authority or ability of an Attorney General to protect the interests of his/her State or the people of his/her State. This

Assurance shall not bar the Attorney General or any other governmental entity from enforcing laws, regulations, or rules against T-Mobile for conduct after or otherwise not covered by this Assurance, except to the extent expressly released by this Assurance. Further, nothing in this Assurance shall be construed to limit the ability of the Attorney General to enforce the obligations that T-Mobile has under this Assurance.

X. GENERAL PROVISIONS

27. The Parties understand and agree that this Assurance shall not be construed as an approval or a sanction by the Attorneys General of T-Mobile's business practices, nor shall T-Mobile represent that this Assurance constitutes an approval or sanction of its business practices. The Parties further understand and agree that any failure by the Attorneys General to take any action in response to any information submitted pursuant to this Assurance shall not be construed as an approval or sanction of any representations, acts, or practices indicated by such information. Further, nothing in this Assurance shall be construed or deemed to be an admission or concession or evidence of any liability or wrongdoing on the part of T-Mobile or of any fact or violation of any law, rule, or regulation, or any causal relationship between any action or inaction by T-Mobile and the 2015 Experian Data Breach.

28. Nothing in this Assurance shall be construed as relieving T-Mobile of the obligation to comply with all applicable state and federal laws, regulations, and rules, nor shall any of the provisions of this Assurance be deemed to be permission to engage in any acts or practices prohibited by such laws, regulations, and rules.

29. As to each individual signatory Attorney General, this Assurance shall be governed by the laws of that Attorney General's state without regard to any conflict of laws principles.

30. T-Mobile shall deliver a copy of this Assurance to, or otherwise fully apprise, each of its current officers of the rank of executive vice president or above, the Chief Information Security Officer, and each member of its Board of Directors within ninety (90) days of the Effective Date. T-Mobile shall deliver a copy of this Assurance to, or otherwise fully apprise, any new officers of the rank of executive vice president or above, new executive management officer having decision-making authority with respect to the subject matter of this Assurance, and each new member of its Board of Directors, within ninety (90) days from which such person assumes his/her position with T-Mobile.

31. In states where statute requires that this Assurance be filed with and/or approved by a court, T-Mobile consents to the filing of this Assurance and to its approval by the court and authorizes the Attorneys General in such states to represent that T-Mobile does not object to the request that the court approve the Assurance. T-Mobile further consents to be subject to the jurisdiction of such courts for the exclusive purposes of having such courts approve or enforce this Assurance. To the extent that there are any court costs associated with the filing of this Assurance, T-Mobile agrees to pay such costs.

32. T-Mobile shall not participate in any activity or form a separate entity or corporation for the purpose of engaging in acts or practices in whole or in part that are prohibited by this Assurance or for any other purpose that would otherwise circumvent any term of this Assurance. T-Mobile shall not knowingly cause, permit, or encourage any other persons or entities acting on its behalf, to engage in practices prohibited by this Assurance.

33. This Assurance may be executed by any number of counterparts and by different signatories on separate counterparts, each of which shall constitute an original counterpart thereof

and all of which together shall constitute one and the same document. One or more counterparts of this Assurance may be delivered by facsimile or electronic transmission with the intent that it or they shall constitute an original counterpart thereof.

34. The undersigned T-Mobile representatives state that they are authorized to enter into and execute this Assurance on behalf of T-Mobile and further agree to execute and deliver all authorizations, documents, and instruments which are necessary to carry out the terms and conditions of this Assurance.

35. T-Mobile agrees that this Assurance does not entitle it to seek or to obtain attorneys' fees as a prevailing party under any statute, regulation, or rule, and T-Mobile further waives any right to attorneys' fees related to this Assurance that may arise under such statute, regulation, or rule.

36. This Assurance shall not be construed to waive any claims of sovereign immunity the States may have in any action or proceeding.

XI. SEVERABILITY

37. If any clause, provision, or section of this Assurance shall, for any reason, be held illegal, invalid, or unenforceable, such illegality, invalidity, or unenforceability shall not affect any other clause, provision, or section of this Assurance and this Assurance shall be construed and enforced as if such illegal, invalid, or unenforceable clause, section, or provision had not been contained herein.

XII. NOTICE/DELIVERY OF DOCUMENTS

38. Any notices or other documents required to be sent pursuant to this Assurance shall be sent to the following addresses via first class and electronic mail. Any party may update its designee or address by sending written notice to the other party informing them of the change.
