

1-4-23

To: PA office of Attorney General
Attention: Acre - Act 38

We live in Leacock Township. Leacock Township has an ordinance that requires an engineered stormwater plan for every structure that exceeds 2000 square ft.

We constructed 3 high tunnels, each of them is 22 ft. X 294 ft. in size. They are constructed of metal pipes and plastic. We use them to grow vegetables. We did not do any excavation before building them.

Leacock Township is requiring that we do an Engineered stormwater plan for these high tunnels, and we are questioning their legal right to do so.

Please respond as soon as possible! This is an issue that has been costing us a lot of time and money!

Yours Truly,
