Subject: [EXTERNAL] [REDACTED] Farm NEEDS YOUR HELP

CAUTION: This email originated from outside the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Attention ACRE,

We are a 4th generation farm and we recently purchased the farm from our grandmother to keep peace amongst our family. We currently farm straw on about 50 acres and run our garden center, greenhouse, composting business and seasonal festivals on our farm to earn income.

We contacted you a while back about a situation with our farm and Buckingham Township. We still have a few issues with the township and we feel that we have tried to work with them but they recently have been giving us a hard time due to smoke coming from our compost piles.

We have since got it under control but now they are trying to push to shut down our composting business and our agritourism / festival business. We simply can not afford to lose this business. We have all permits approved and in compliance with the DEP. The county seems to be okay from the preservation side but the township is not.

Can you please help?

I can be reached directly at [REDACTED]

Thank you!
