Re: Response to ACRE Complaint

Dear Mr. Willig,

I am writing this response in regard to the correspondence received from your office dated May 19, 2025.

As requested, Lower Macungie Township has begun reviewing its existing tree harvesting code and the model ordinance provided to determine any necessary amendments based on the issues noted in your letter and the complaint of [REDACTED]. It is my understanding this is the only complaint received to date regarding Lower Macungie Township's harvesting code. We would appreciate sixty (60) days to undertake this review with Township staff and the Township Solicitor. Thereafter, I would like to discuss this matter further with you, on the specific items [REDACTED] has pointed out in his complaint, prior to taking any recommendations to the governing body.

I look forward to hearing from you in regard to the above.

Thank you,  
[REDACTED]  
[REDACTED]

Director of Community Development  
Lower Macungie Township
